**REPORT OF THE NATIONAL COLLEGIATE ATHLETIC ASSOCIATION
DIVISION I ADMINISTRATION CABINET
SEPTEMBER 29, 2011, CONFERENCE CALL**

KEY ITEMS.

1. **Division I Online Override Voting Process.** The cabinet approved the new online override voting process and timeline for implementation this fall.
2. **Committee Appointments.** The cabinet approved appointments to several Division I and Association-wide committees.
3. **Review of Legislation.** The cabinet took positions on legislative proposals referred from the 2011-12 Division I legislative cycle.

ACTION ITEMS.

1. **Legislative Items.**
 - **Multidivisional Membership – Compliance Review Requirement – Failure to Meet Deadline.** The cabinet reviewed the provisions of NCAA Bylaw 20.4.4, which require an active multidivisional institution, once every four years, to engage in a compliance review conducted by an authority outside the athletics department, subject to approval by the cabinet and recommends that the Division I Legislative Council sponsor noncontroversial legislation to establish a penalty for failure to meet the deadline for completion of the compliance review and submission of the report. Specifically, the cabinet recommends that the Legislative Council adopt legislation that would impose a fine of \$500 for any multidivisional institution that fails to submit the final report by the conclusion of the four year deadline. In addition, failure to submit the final report within six months of the conclusion of the institution's deadline would result in an additional \$500 fine. Finally, failure to submit the final report within one year (an additional six months) would result in the institution being placed in restricted membership for the ensuing academic year and, thus, ineligible for NCAA championship competition for that year. Restricted status would be removed the following academic year only after the report has been received and approved by the cabinet. An institution would have the opportunity to request a waiver of any penalty due to extenuating circumstances.
2. **Nonlegislative Items.**
 - None.

INFORMATION ITEMS.

1. **Division I Online Override Voting Process.** The cabinet received a demonstration of the proposed Division I online override voting process. The process will be administered through the Legislative Services Database for the Internet (LSDBi), which is the current platform the membership uses for legislative and interpretive research and submitting proposals, comments, override requests, etc. The override voting process was modeled after what occurred at previous Division I Business Sessions at the NCAA Convention. There will be a membership discussion period similar to the discussion had on the Convention floor prior to a designated voting period. In its approval of the process and the designated discussion and voting periods associated with the override vote that must occur related to Proposal No. 2009-100-A, the cabinet authorized the staff to make minor adjustments if necessary and as recommended by the Division I Legislative Council during its October meeting.
2. **Report of the Administration Cabinet.** The cabinet received the report of the June 29, 2011, Administration Cabinet meeting and approved the interim actions of the Administrative Committee of the Administration Cabinet.
3. **Governance Reports.** The cabinet received status reports from the Communications and Coordination Committee, the Board of Directors and the Division I Student-Athlete Advisory Committee.
4. **Committee Appointments.** The cabinet approved appointments to seven Division I and Association-wide committees. A list of the appointments is attached (See Attachment A).
5. **Committee Term Extension.** The cabinet approved a request from the NCAA Sportsmanship and Ethical Conduct Committee to extend the term of the recently appointed chair for one additional year.
6. **Waiver of Replacement Requirement – NCAA Bylaw 21.7.1.1.3.** The cabinet denied a request from the Division I Men's Basketball Committee to waive the "On the Staff" requirements set forth in Bylaw 21.7.1.1 to permit the recently appointed chair to remain on the committee for the final year of his term.
7. **Review of Proposals Referred to the Cabinet from the 2011-12 cycle.** The cabinet reviewed Division I legislative proposals assigned to it for review that will be considered by the Division I membership as part of the 2011-12 legislative cycle. (See Attachment B for the cabinet's positions).

Cabinet chair: William Chaves, Big Sky Conference
Cabinet liaisons: Jacqueline Campbell, Division I governance
Steve Mallonee, academic and membership affairs
Sharon Tufano, governance

**REPORT OF THE JANUARY 14, 2012, MEETING OF THE
NATIONAL COLLEGIATE ATHLETIC ASSOCIATION
DIVISION I BOARD OF DIRECTORS**

1. **Report of the October 27, 2011, Board of Directors Meeting.** The Board approved the report of its October 27, 2011, meeting. (Unanimous voice vote)

2. **President's Report.** NCAA President Mark Emmert reported the following:
 - a. **Men's College Basketball Officiating, LLC (MCBO) Sportsmanship Initiative.** The Board was informed that the Competition Committee of the MCBO has developed a plan to address on-court sportsmanship and behavior of coaches, players and officials in an effort to elevate the image of the sport and positively impact the game environment.

 - b. **Institutional Integrity and Shared Responsibility.** President Emmert noted the need to address institutional integrity and shared responsibility, particularly in determining the appropriate role for decentralizing rules and the nature of the rules for which institutions should be held accountable. William Powers, president of the University of Texas, joined the meeting and suggested that in order to address institutional integrity issues, risk management programs should be applied across university campuses and include the athletics department. He noted that a modern risk enterprise and sentencing guidelines approach could assist institutions in addressing many of the compliance and enforcement issues facing athletics departments today. President Emmert noted that at the request of the Transforming Intercollegiate Athletics Collegiate Model – Rules and Enforcement Working Groups, he plans to create a new working group to address institutional integrity and shared responsibility.

3. **Representation on the Division I Board Directors.** Greg Dell'Omo, vice-chair of the Northeast Conference President's Council and member of the NCAA Division I Presidential Advisory Group, raised with the Division I Board of Directors the issue of full representation on the Board. Several of the nonFootball Bowl Subdivision (FBS) members of the Board expressed concern that without full representation, there are a significant number of conferences that do not feel they have a voice in the current governance structure. President Emmert noted that he will bring back to the Board in August a proposal that will suggest how presidents can engage in a conversation about governance models.

4. Presidential Retreat Initiatives.

- a. NCAA Division I Committee on Academic Performance.** Walt Harrison, chair of the Committee on Academic Performance, presented the following recommendations:

- (1) That the Board of Directors reinstate Proposal No. 2011-65 – Eligibility – Two-Year College Transfers – Year of Academic Readiness at Two-Year College to the 2011-12 legislative cycle and table it.

BOARD ACTION: The Board agreed to reinstate the proposal and then moved to tabled it. (Unanimous Voice Vote)

- (2) That the Board approve the NCAA Division I Academic Performance Program (APP) Penalty Waiver Directive. [See Attachment A for details of the APP Penalty Waiver Directive.]

BOARD ACTION: The Board approved the APP Penalty Waiver Directive. (Unanimous Voice Vote)

- (3) That the Board approve an amendment to the APP policies and procedures providing an additional waiver appeal opportunity for teams that do not meet the postseason competition academic requirements.

BOARD ACTION: The Board approved the amendment to the APP policies and procedures as recommended. (Unanimous Voice Vote)

- b. Transforming Intercollegiate Athletics Student-Athlete Well-Being Working Group.** Sidney McPhee, chair of the Student-Athlete Well-Being Group, presented the following recommendations based upon reconsideration of the legislation by the working group and comments and discussion by membership groups during the 2012 NCAA Convention:

- (1) That in its reconsideration of Proposal No. 2011-97 – “Multi-Year Grants in Aid,” the Board of Directors should reaffirm its original action to adopt the proposal.

BOARD ACTION: The Board voted to reaffirm its original action to adopt Proposal No. 2011-97. [For 13 (Adams, Albrecht, Beauchamp, Genshaft, Hatch, Hopkins, McPhee, Millner, Peters, Ray, Schmidly, Simon, White), Against 2 (Bailey, Meehan).] As a result of this action, the proposal will proceed to an on-line one vote per active member institution and multi-

sport conference override vote. It is anticipated that the vote will take place in February.

- (2) That in its reconsideration of Proposal No. 2011-96 “ Miscellaneous Expense Allowance,” the Board should take the following actions:
 - (a) Rescind the portion of the proposal that provided that all nonathletics financial aid will no longer count toward team limits.
 - (b) Charge the Student-Athlete Well-Being Working Group with developing an alternative proposal that includes the \$2,000 miscellaneous expense allowance and considers the options below, as well as a need-based component, for review by the Board at its April meeting. It was noted that the proposal would apply to grants-in-aid, effective for the 2013-14 academic year.
 - i. Increase the “denominator” of a full and equivalency (value) “grants-in-aid” in effect by \$2,000 (not to exceed the institution’s cost of attendance).
 - ii. Maintain a value of a full grant-in-aid at its current level, and establish an “exempt” category of miscellaneous expense funds that are designated on team squad lists for use at the institution’s discretion to award up to \$2,000 (not to exceed cost of attendance) for full grant recipients, as well as to provide up to the proportionate amount of applicable funds to any or all equivalency grant recipients.

BOARD ACTION: The Board reaffirmed its support for the \$2,000 miscellaneous expense allowance, but directed the Student-Athlete Well-Being Working Group to come back to the Board in April with an alternative proposal that considers the issues above as well as recommendations for implementation. [For 11 (Bailey, Beauchamp, Genshaft, Hatch, Hopkins, McPhee, Meehan, Ray, Schmidly, Simon, White), Against 4 (Adams, Albrecht, Millner, Peters).] This action renders Proposal No. 2011-96 moot and a new legislative proposal as described above will be considered by the Board during its April meeting, which then will subject such new legislation to a 60-day request for override vote period

- c. **Transforming Intercollegiate Athletics Resource Allocation Working Group.** Mike Adams, chair of the Resource Allocation Working Group, presented the following recommendations:

- (1) That the Board adopt legislation, effective August 1, 2014, for the elimination of institutional foreign tours that occur at any time. Signed contracts dated previous to January 14, 2012, for scheduled institutional foreign tours will be honored.

BOARD ACTION: The Board voted to defeat the legislation as recommended. [For 2 (Adams, Millner), Against 13 (Albrecht, Bailey, Beauchamp, Genshaft, Hatch, Hopkins, McPhee, Meehan, Peters, Ray, Schmidly, Simon, White).]

- (2) That the Board adopt legislation, effective August 1, 2012, to reduce the maximum number of Football Bowl Subdivision (FBS) scholarships (counters) from 85 to 80, with a proportional decrease in the maximum number of scholarships (equivalencies) in Football Championship Subdivision (FCS) from 63 to 60, with 80 overall counters.

BOARD ACTION: The Board voted to defeat legislation to reduce scholarships in FBS football. [For 4 (Adams, Albrecht, Peters, Schmidly), Against 6 (Bailey, Genshaft, Hatch, McPhee, Ray, Simon).]

[Note: The recommendation for a reduction in FCS scholarships will be reviewed by the FCS presidents of the Division I Presidential Advisory Group in April, inasmuch as that group has final authority to act on legislation specific to FCS football.]

- (3) That the Board adopt legislation, effective August 1, 2014, to reduce women's basketball scholarships from 15 to 13.

BOARD ACTION: The Board voted to defeat legislation to reduce scholarships in women's basketball. [For 7 (Adams, Albrecht, Beauchamp, Millner, Peters, Schmidly, White), Against 8 (Bailey, Genshaft, Hatch, Hopkins, McPhee, Meehan, Ray, Simon).]

- (4) That the Board adopt a resolution, which specifies:

- That an immediate moratorium be instituted to cap the number of contests/dates of competition at the levels that currently exist in all sports;
- That the NCAA Division I Board of Directors commission a study to determine the maximum number of contests/dates of competition of the playing season (championship and nonchampionship segments) that is essential to the success of each NCAA sport. In addition, the Working

Group recommends that the scope of this study specifically examine how basketball contests are counted, and

- That once the study is completed and the appropriate contest/dates of competition limits are in place for each sport, that those limits remain in place for 10 years.

BOARD ACTION: The Board adopted the resolution. (Unanimous voice vote)

- (5) That the Board adopt legislation, effective August 1, 2013, that limits the number of noncoaching staff members in the sports of football and men's basketball as follows:
 - (a) In football, a limit of 12 noncoaching staff members, whose duties include support of the football program in any capacity, including third-party contractors that may be employed by an institution. The 12 noncoaching staff members shall not include athletics trainers, academic support and compliance staff members.
 - (b) In men's basketball, a limit of six noncoaching staff members, whose duties include support of the men's basketball program in any capacity, including third-party contractors that may be employed by the institution. The six noncoaching staff members shall not include athletics trainers, academic support and compliance staff members.

BOARD ACTION: The Board expressed interest in taking action to address this matter, but voted to table these recommendations for reconsideration at its April meeting, and asked that additional information and feedback be gathered from the membership regarding appropriate number limitations. [For 13 (Adams, Bailey, Beauchamp, Genshaft, Hatch, Hopkins, McPhee, Meehan, Peters, Ray, Schmidly, Simon, White), Against 2 (Albrecht, Millner).]

- d. **Transforming Intercollegiate Athletics Collegiate Model -- Rules Working Group.** Kevin Lennon, NCAA vice president of academic and membership affairs, presented the following Rules Working Group recommendations:

- (1) That the Board support the general approach outlined for a new regulatory structure, which includes developing principle-based outcomes to ensure that NCAA rules are value-based, meaningful, enforceable and supportive of the

collegiate model of sport. The Board noted its support for the new regulatory structure.

- (2) That the Board endorse a moratorium on new legislation for the 2012-13 legislative cycle (unless part of presidential reform agenda).

BOARD ACTION: The Board voted to apply a moratorium on new legislation for the 2012-13 legislative cycle, unless it is part of the presidential agenda. (Unanimous voice vote)

- e. **Transforming Intercollegiate Athletics Collegiate Model -- Enforcement Working Group.** Ed Ray, chair of the Enforcement Working Group, and Julie Roe Lach, NCAA vice president of enforcement, updated the Board on the working group's progress with creating a multi-level NCAA rules violation structure, an enhanced penalty structure for NCAA rules infractions and re-establishing a sense of shared responsibility among the interested individuals and entities in intercollegiate athletics.

5. Division I Governance Structure Update.

- a. **Report of the January 12, 2012, Meeting of the Leadership Council.** Mike Alden, chair of the Division I Leadership Council, reported on the January 12 meeting of the Council and presented the following recommendations:

- (1) Summer Access to Men's Basketball Student-Athletes. That the Board take action to adopt a summer access model that permits institutional staff members to conduct or supervise summer athletics activities in accordance with specified requirements (i.e., enrollment in summer school, meeting opt-out academic benchmarks). [Note: See Attachment B for details of the summer access model.]

BOARD ACTION: The Board voted to adopt the summer access model as recommended, effective immediately. (Unanimous voice vote.)

- (2) Men's Basketball Recruiting Model – On Campus Evaluations. That the Board of Directors take final action to adopt provisions for on-campus evaluations (OCE) of prospective student-athletes. [Note: See Attachment C for provisions of OCEs.]

BOARD ACTION: The Board voted to adopt the provisions for on-campus evaluations as recommended, effective immediately. (Unanimous voice vote.)

- b. Report of the January 11-12, 2012, Meeting of the Division I Legislative Council.** Carolyn Campbell-McGovern, chair of the Division I Legislative Council, noted that at the request of the Transforming Intercollegiate Athletics Collegiate Model -- Rules Working Group, the Legislative Council tabled 49 proposals. In addition, the Council took the following actions:

- (1) Voted to adopt Proposal No. 2011-23 -- Amateurism -- Definitions And Applications -- Agent, which specifies that an agent is any individual who, directly or indirectly, represents or attempts to represent an individual for the purpose of marketing his or her athletics ability or reputation for financial gain, or seeks to obtain any type of financial gain or benefit from securing a prospective student-athlete's enrollment at an educational institution or from a student-athlete's potential earnings as a professional athlete.
- (2) Voted to adopt Proposal No. 2011-45 -- Recruiting -- Tryouts -- Nonscholastic Practice Or Competition And Noninstitutional Camps And Clinics -- Women's Basketball, which specifies that in women's basketball, an institution [including any institutional department (e.g., athletics, recreational/intramural)] shall not host, sponsor or conduct a nonscholastic basketball practice or competition in which women's basketball prospective student-athletes participate on its campus or at an off-campus facility regularly used by the institution for practice and/or competition by any of the institution's sport programs, and to establish limited exceptions, as specified; further, specifies that the use of an institution's facilities for noninstitutional camps is limited to the months of June, July and August; finally, to prohibit evaluations at noninstitutional events, camps or clinics that occur on a Division I campus during evaluation periods.
- (3) Voted to adopt Proposal No. 2011-46 -- Recruiting -- Tryouts -- Nonscholastic Practice Or Competition And Noninstitutional Camps Or Clinics -- Football, which specifies that in the sport of football, an institution [including any institutional department (e.g., athletics, recreational/intramural)] shall not host, sponsor or conduct a nonscholastic football practice or competition (e.g., seven-on-seven events) in which football prospective student-athletes participate on its campus or at an off-campus facility regularly used by the institution for practice and/or competition by any of the institution's sport programs; further, to limit the use of institutional facilities for noninstitutional camps or clinics that include prospect-aged participants to June and July in bowl subdivision football and to June, July and August in championship subdivision football.

- (4) Voted to defeat Proposal No. 2011-64 -- Eligibility -- Seasons Of Competition: Five-Year Rule -- Five Seasons Of Eligibility – Football, which specifies that a student-athlete in the sport of football shall not engage in more than five seasons of intercollegiate competition and may only engage in a fifth season at an institution at which the student-athlete previously used a season of competition.

6. **Supplemental Distribution.** Ed Ray, chair of the Executive Committee, informed the Board that the Finance Committee recommended that the Executive Committee approve a supplemental distribution of approximately \$36,000,000 to be dispensed to the Division I membership.

BOARD ACTION: The Board voted to approve the recommendation of the Finance Committee and authorized distribution of a Division I supplemental distribution of \$36,000,000 to mutli-sport conferences. (Unanimous voice vote) [Note: Ann Millner was not present.]

7. **Status Report on Review of NCAA Division I Athletics Certification Program.** Troy Arthur, NCAA director of academic and membership affairs, updated the Board on the work of the NCAA Division I Athletics Certification Committee in its review of the Division I Athletics Certification program. The Board received information regarding proposed name changes to the certification program and the committee, system development, organizational changes and the accountability spectrum.

8. **NCAA Membership – Accreditation Policy.** The Board reviewed a proposed Association-wide membership accreditation policy that shall be used to assist in determining whether an active or provisional NCAA member institution meets the applicable membership requirements regarding accreditation as further set forth in Article 3 of the NCAA Constitution.

BOARD ACTION: The Board voted to endorse the policy. (Unanimous voice vote) [Note: Ann Millner was not present.]

9. **Future Meeting Dates.**

a. April 25-26, 2012, Indianapolis, Indiana.

[Note: There will be a joint meeting of the Division I Presidential Advisory Group and the Board of Directors on Wednesday, April, 25, 2012, from 1-5 p.m. to review and discuss reports of several of the Transforming Intercollegiate Athletics Working Groups. The Board of Directors will convene its regular meeting on Thursday, April 26, 2012.]

NCAA Division I Committee on Academic Performance
Academic Performance Program Access to Postseason and
Penalty Waiver Directive

Background.

The central purpose of the NCAA Division I Academic Performance Program (APP) is to ensure that the NCAA Division I membership is dedicated to providing student-athletes with an exemplary education and intercollegiate athletics experience in an environment that recognizes and supports the primacy of the academic mission of its member institutions while enhancing the ability of student-athletes to earn a degree.

When a team's academic performance, measured by the multiyear NCAA Division I Academic Progress Rate (APR), falls below 930, that team becomes ineligible for postseason competition and is subject to penalties. The NCAA Division I Committee on Academic Performance has established a transition period in which the APP penalty benchmark will be 900 in 2011-12 and 2012-13. In addition, filters are applied to teams' data to account for improvement and resources in the penalty calculation. NCAA Division I Bylaws 18.4.2.3.1, 23.2.2.3 and 23.3 provide for waivers of APP penalties or access to postseason competition. The committee has approved this directive to provide guidance to the NCAA staff and the NCAA Division I Committee on Academic Performance Subcommittee on Appeals in reviewing APP penalty waiver requests.

Guiding Principles.

1. Requests to waive ineligibility for postseason and APP Level One, Two and Three penalties will be considered independently. The requests are filed simultaneously, but the access to postseason competition and APP penalties have different standards for relief.
2. APP penalty and postseason waiver requests involve a review of the entire athletics team's overall academic performance. The APR is a team rate and not based on the academic performance of a single student-athlete. Therefore, the review of waiver requests shall consider all student-athletes included in the team's multiyear APR. This approach considers the loss of all APR points, not just those of select students. This approach could be referred to as the "top-down approach" (e.g., start at an APR of 1000 and explain the loss of all points).
3. APR Improvement Plans are reviewed with the waiver request. Plans should be designed to assist teams in achieving APRs above the penalty benchmarks in a reasonable time by identifying and addressing issues impacting a team's APR with measurable goals, steps to achieve the stated goals and a timetable for implementation.

4. The identification of academically under-performing teams that are subject to an APP penalty includes consideration of resource level and squad size. Therefore, the staff/subcommittee/committee will generally not consider these elements in its review of APP penalty waiver or loss of access to postseason waiver requests.

Waivers of Ineligibility for Postseason Competition.

1. First Occasion Team is Ineligible for Postseason Competition. Institutions are permitted to submit a waiver request the first occasion a team is subject to postseason competition ineligibility. The committee has established a high threshold for relief in these cases and generally relief will not be provided.
 - Factors to be Considered. The staff/subcommittee will consider the following factors in reviewing such a request:
 - (1) Extraordinary Mitigating Circumstances. The institution's cited mitigation must be clearly out of the control of the institution, the athletics department and the team's student-athletes. It must pertain to matters not previously addressed in the APP (e.g., small squad size, institutional mission). Finally it must have impacted the team over the multiple years that make up the four-year APR. An example of mitigation that would be considered extraordinary is a natural disaster that impact a team's APR over multiple years. An example of mitigation that would not be considered extraordinary would be head coaching change, significant leadership change at the institution, or institutional reclassification.
 - (2) APR Improvement Plan. An institution's commitment to improving the penalized team's academic performance as outlined in the APR Improvement Plan must be considered in reviewing a waiver requesting relief from postseason competition ineligibility. Plans will be reviewed for focus on critical areas impacting academic success as well as other components demonstrating the institution's accountability toward meeting the stated goals of the APP (e.g., graduating student-athletes).

- (3) Academic Factors. A waiver request must include a comprehensive review of the team's historical academic trends to determine if the team's placement in the APP penalty structure is the result of habitual underperformance or the result of some anomaly event (see the list on Page No. 4). Trending will also be evaluated to determine if the team is making progress with respect to the penalty benchmark.
 - (4) Alternative Penalty Options. An institution may request that an alternative penalty be imposed in lieu of postseason ineligibility. The institution must include an explanation of how the alternate penalty equates to a loss of postseason access.
2. Second Occasion Team is subject to Loss of Postseason Competition. Institutions are permitted to request a waiver of a team's loss of access to postseason competition.
 - Factors to be Considered. The second or subsequent time a team loses access to postseason competition, the staff/subcommittee/committee will review the request using the same factors used in considering an APP penalty waiver (see Page Nos. 4 – 7 for more information). If a team has demonstrated meaningful improvement and some of the factors in item 3-b below are present, the level of mitigation required to receive relief may be less stringent than what is required the first occasion a team was ineligible for postseason competition.
3. Notes on Outcomes. A loss of access to postseason competition waiver request will be approved, conditionally approved or denied.
 - a. First occasion loss of access to postseason waiver requests should be denied if the institution cannot demonstrate extraordinary mitigating circumstances as described on Page No. 2. Other factors listed in item number one above will be examined, but absent extraordinary mitigation are not likely to result in an approval.
 - b. Second and subsequent waivers of loss of access to postseason competition should be denied if the institution cannot demonstrate:
 - (1) Significant academic improvement that is sustainable;

- (2) Mitigating circumstances as defined on Page No. 7;
- (3) An APR Improvement Plan that demonstrates the institution's commitment to improving the team's academic performance by identifying critical issues that have impacted the team's APR and addressing those issues with clear steps and measurable goals; and
- (4) An expectation that the team will achieve an APR of 930 or higher in a reasonable period of time.

APP Penalty Waivers.

Institutions are permitted to request a waiver of a team's APP penalties. The staff/subcommittee/committee will consider the following factors in reviewing such a request:

1. Academic Factors. Evaluating a team's academic performance is an important part of the APP penalty waiver process. The staff/subcommittee/committee's review of a team's academic performance may include consideration of the following elements:
 - a. A comprehensive review of the team's historical APP performance, including any penalty history and academic trends to determine if the team's placement in the APP penalty structure is the result of habitual underperformance or the result of some anomaly event. Trending will also be evaluated to determine if the team is making sustainable progress toward the penalty benchmark.
 - b. The team's Graduation Success Rate and Federal Graduation Rate, if available.
 - c. Eligibility and Retention. The team's eligibility and retention will be compared against the following:
 - (1) All other Division I teams in the same sport.
 - (2) The institution's teams.
 - d. The team's academic profile including hours earned, grade-point average, eligibility and retention points.

- e. The academic profile of the team when admitted to the member institution, including admissions status as compared to the general student-body and/or other student-athletes at the institution.
 - f. The number of graduates the team has generated over the four years that make up the multiyear rate.
 - g. The number of student-athletes who were not academically eligible and not retained included in the multiyear APR.
 - h. Other academic data elements that may be relevant to the case.
2. Other Factors. The staff/subcommittee/committee's review of a team's academic performance may also include consideration of the following elements:
- a. Size of variance between the team's APR and the applicable APP penalty benchmark (930).
 - b. The team's single-year APRs that comprise the multiyear rate. Specifically, the number of single-year APRs above or below the penalty benchmarks (930).
 - c. The institution's history of implementation of its APR Improvement Plan as well as the current plan's ability to address critical issues.
 - d. Mitigating circumstances that have affected the team's APR (see below).
 - e. An institution may request that an alternative penalty be imposed in lieu of the assigned APP penalty or a penalty option from the menu offered at Level Three. Should an institution offer an alternative penalty, the staff/committee/subcommittee would consider the various factors as well as the alternate penalty in the decision. The institution must demonstrate how the alternate penalty equates to the penalty it would replace.
 - f. Teams asserting that they have advanced in the penalty structure due to corrections to APP data identified in an APP data review must demonstrate that the current penalty is due to a lost opportunity for the institution to identify academic issues impacting the teams academic performance; to develop an appropriate APR Improvement Plan and to have an opportunity to rectify academic issues. If the institution can demonstrate this lost opportunity to identify and correct academic issues

affecting the team's academic performance the staff and/or subcommittee/committee may consider this a mitigating circumstance warranting relief from a penalty, however all such requests will be reviewed on a case-by-case basis to allow for other factors to be reviewed as well.

3. Mitigating Circumstances. Circumstances will be considered as compelling mitigating factors if the institution can demonstrate that it had a direct correlation to the team's ability to earn eligibility/graduation and/or retention points supported by objective documentation. The institution may reference mitigation that was considered in a previous waiver request if the impact of the mitigation is evidenced in the current APR. Waiver decisions will analyze those circumstances that may be unique events resulting in academically low performing year(s) versus habitually underperforming teams. A team's APR that is negatively affected by a unique one-time circumstance, but otherwise is not historically an underperforming team, should be treated differently than a team that has a history and pattern of academic underachievement.

Circumstances not considered compelling mitigation may include, but are not limited to, the following:

- a. Unreasonable reliance by a student-athlete on misinformation from an institutional staff member (e.g., misadvisement);
- b. Institutional lack of understanding regarding the APP;
- c. Failure to develop and implement an APR Improvement Plan;
- d. Conferences and/or institutions with more stringent academic standards than NCAA Division I progress-toward-degree requirements; or
- e. Circumstances submitted in a request to receive an adjustment of an individual student-athlete's APR retention and/or eligibility or graduation point if the institution received relief for those circumstances by way of an APR adjustment.

Institutions are limited to submitting information concerning mitigating circumstances only for the academic years used to calculate that team's current multiyear APR. However, the staff, subcommittee and committee reserve the right to consider any relevant information that would explain the team's historical performance.

4. Level Three Penalty Options. An institution with a team subject to Level Three penalties must self-impose penalties from a list of menu options. These penalties are in addition to the prescribed penalties. The institution may also elect to request an alternative penalty be imposed. The staff/committee will consider the institution's self-imposed penalty elements in the waiver decision. The staff/committee can also prescribe additional penalties for the team.
5. Notes on Outcomes. An APP penalty waiver request will be partially or fully approved or conditionally approved, or denied. Requests will likely be denied if the institution cannot demonstrate:
 - a. Significant academic improvement that is sustainable; OR
 - b. The team is performing well academically but for one or more years of APP data impacted by compelling, documented mitigating circumstances;
 - c. An APR Improvement Plan that demonstrates the institution's commitment to improving the team's academic performance by identifying critical issues that have impacted the team's APR and addressing those issues with clear steps and measurable goals;
 - d. An expectation that the team will achieve an APR of 930 or higher in a reasonable period of time; and
 - e. Appropriate self-imposed penalties at Level Three.

Use of Conditional Approvals.

Waivers of APP penalties and ineligibility for postseason competition may receive conditional approval. A waiver that is conditionally approved does not waive the team's penalty unless the team satisfies the stated condition(s). These conditions may include, but are not limited to:

1. Acceptable implementation of the institution's written APR Improvement Plan;
2. Attendance at mandatory educational sessions;
3. Meeting or maintaining single-year eligibility and retention goals and/or, meeting or maintaining a specified single-year APR without the inclusion of delayed-graduation points;

4. Requiring the institution to implement certain elements of its APR Improvement Plan determined to be “critical” to improved academic performance;
5. Requiring the institution to demonstrate it has satisfied its commitment of resources to enhance academic support initiatives that are part of the institution’s APR Improvement Plan or cited in its APP penalty waiver/hearing rationale;
6. Requiring the institution to impose limits, restrictions or penalties that are part of its APR Improvement Plan or cited in its waiver/hearing rationale (e.g., withhold a head coach from contests);
7. Requiring an institution to use the NCAA Facilitating Learning and Achieving Graduation/Graduation Risk Overview program; and
8. Requiring an institution comply with identified minimal academic profiles for entering student-athletes that are part of its APR Improvement Plan or its waiver/hearing rationale. (*Revised: 10/2008;10/2010*)

An institution/team that fails to meet the stated condition(s) by the given timeframe shall have the waiver decision converted to a denial and the APP penalty must be applied to the team. The institution must impose the applicable penalty within the prescribed period of time.

Review of Conditionally Approved Penalty Waivers.

At some point established by the committee, such as the start of the academic year following the year in which the waiver was conditionally approved, the staff verifies that all established conditions were met (e.g., single-year APR, acceptable implementation of APR Improvement Plan). If the staff concludes that the team has not satisfied the condition(s) of the penalty waiver, the subcommittee and staff may consider mitigating circumstances presented by the institution. Such reviews shall occur on a case-by-case basis, and shall include consideration of any mitigation for the team’s failure to reach the target APR, as well as the totality of the team’s circumstances with regard to the imposed conditions. In such cases, the staff will review factors including improvement in the single-year and multiyear APR, how close the team came to meeting the target and mitigating circumstances. This action does not change an institution’s opportunity to explain why it failed to meet the condition(s) or to appeal a decision by the staff to the subcommittee. The subcommittee will hear such appeals via teleconference. The subcommittee’s decision is final.

Finally, if it is determined that a conditional waiver is not satisfied and the waiver is denied, the institution must impose the resulting penalties in the time period prescribed by the committee, but generally the academic year following denial of the appeal or, if there was no appeal, following determination that the conditions were not met (e.g., determined condition was not met in 2011-12 results in the imposition of the penalties in 2012-13).

If the team is subject to a penalty in the next academic year, the team is potentially subject to the penalty level that was conditionally waived and the next penalty level if it fails to meet the conditions of the waived penalty.

APR Improvement Plans.

APR Improvement Plans are meant to encourage institutions that have a team with an APR below 930 to implement strategies to improve the academic performance, retention and graduation of the student-athletes on the team. Institutions seeking relief from an APP penalty are expected to demonstrate that the team's academic performance will improve and will achieve an APR of 930 in a reasonable period of time. Therefore, APR Improvement Plans submitted with a waiver will be reviewed as follows:

1. Institutions/teams will be accountable for identifying issues impacting the penalized team's ability to move its APR above the established penalty benchmark. The following shall be addressed:
 - a. Identify any issues impacting the academic performance, retention and graduation of the team's student-athletes and develop specific and measurable goals to address the issues, steps to meet the goals, timetable for implementation and persons responsible for each step outlined in the plan.
 - b. Identify specific target APR goals for the team(s) for the current academic year that will assist the team in meeting the 930 benchmark in a reasonable period of time.
 - c. Identify all steps the institution has taken toward implementation of any previous APR Improvement Plan and progress toward the measurable goals.
2. If an institution fails to create and submit an acceptable APR Improvement Plan, as defined by the committee, there is a presumption that any penalty waiver request will be denied.

Multidivisional Reclassification – Opposite Gender -- NCAA Bylaw 20.4.1.2. The Leadership Council agreed to recommend that the NCAA Division I Board of Directors adopt noncontroversial legislation that would permit current Division II and Division III institutions that had one sport (other than football and basketball) classified in Division I for the 2010-11 academic year to petition to have one sport of the opposite gender reclassified to Division I. The Leadership Council agreed that the reclassification process should be identical to the two-year process that existed before the adoption of Proposal No. 2010-100, that the application fee should be increased to \$10,000 and that there be no time limitation for the opportunity to reclassify a second sport.

ACTION ITEMS.

Legislative Items.

Multidivisional Membership – Compliance Review Requirement – Failure to Meet Deadline. The cabinet reviewed the provisions of NCAA Bylaw 20.4.4, which require an active multidivisional institution, once every four years, to engage in a compliance review conducted by an authority outside the athletics department, subject to approval by the cabinet and recommends that the Division I Legislative Council sponsor noncontroversial legislation to establish a penalty for failure to meet the deadline for completion of the compliance review and submission of the report. Specifically, the cabinet recommends that the Legislative Council adopt legislation that would impose a fine of \$500 for any multidivisional institution that fails to submit the final report by the conclusion of the four year deadline. In addition, failure to submit the final report within six months of the conclusion of the institution's deadline would result in an additional \$500 fine. Finally, failure to submit the final report within one year (an additional six months) would result in the institution being placed in restricted membership for the ensuing academic year and, thus, ineligible for NCAA championship competition for that year. Restricted status would be removed the following academic year only after the report has been received and approved by the cabinet. An institution would have the opportunity to request a waiver of any penalty due to extenuating circumstances.

Division I Administration Cabinet
c/o Mr. Bill Chaves, chair

Dear Administration Cabinet Members,

On behalf of our two member institutions--Jacksonville State University and Morehead State University, the Ohio Valley Conference respectfully requests the Administration Cabinet's consideration to waive Division I Bylaw 20.9.6.1.

This request for relief is necessary because our two member institutions' men's basketball teams, respectively, competed against five non-Division I institutions during the 2011-12 academic year. For both institutions, two of the five contests in question were Bylaw 17 exempted exhibition contests against non-Division I institutions.

As background, a blanket waiver to Bylaw 20.9.6.1 was granted to all Division I member institutions for the 2007-08 academic year. This relief was granted, in part, due to the membership's lack of understanding of how Bylaw 17 exemptible exhibition contests against non-Division I institutions counted toward the parallel, yet separate, basketball scheduling limits in Bylaw 20.9.6.1.

We kindly ask the Cabinet to consider the unique factors in 2011-12 impacting Division I basketball scheduling. First, there is an increasingly unpredictable element to participating in qualifying multi-team basketball events. Qualifying multi-team events often include non-Division I members as last-minute substitute participants due to other Division I institutions either being unavailable to fill an open slot or withdrawing from the event after an initial commitment to the event.

Our two member institutions present fairly similar situations. Jacksonville State University agreed in May 2011 to participate in a multi-team event for the 2011-12 season. This multi-team event was hosted by a Division I member institution in California. At the time the agreement was executed, Jacksonville State University's opponents in the multi-team event were yet to be determined. However, the event operator made no indication the event would include a non-Division I institution.

In May and June 2011, Morehead State University entered into individual agreements to compete against four non-Division I member institutions for the 2011-12 basketball season. Standing alone, Morehead State University's decision to schedule four non-Division I institutions complies with Bylaw 20.9.6.1. However, subsequent to participating in the CBI Invitational post-season event after the 2009-10 basketball season, Morehead State University agreed with the same CBI Invitational event operator to participate in a multi-team basketball event for the 2011-12 basketball season. At the time this agreement was made in March 2010, the identity of other participating institutions was unknown. The contractual agreement for this multi-team event included the condition that the event operator "....shall have sole authority to determine and select all teams to participate in the event." Fast forward to the 2011-12 academic year and the multi-team event operator added a non-Division I institution to the pool of participating institutions. As a result of this decision by the event operator, Morehead State University's 2011-12 schedule included five non-Division I opponents.

At no point did Jacksonville State University nor Morehead State University intend to schedule more than four non-Division I institutions for the 2011-12 basketball season.

A second relevant factor here is that the Division I membership maintains a comfort level with its institutions competing in basketball against non-Division I institutions. Per Bylaw 17, Division I members are currently afforded reasonable flexibility and incentive to compete against non-Division I members by virtue of the rule that allows two exhibition basketball contests against non-Division I institutions to be exempted from contest limits. This legislative flexibility was borne out of the membership's belief that inter-divisional and inter-association basketball contests afforded a healthier competitive environment than the potentially less desirable alternatives (e.g., Division I institutions scheduling club basketball teams).

Moreover, exempting such basketball contests have enabled Division I member institutions to schedule geographically proximate non-Division I institutions. These opportunities to schedule basketball contests against Division II, Division III, NAIA and other non-Division I institutions in the same community have generated positive athletics opportunities for the student-athletes involved, blossomed new rivalries between neighboring institutions, and improved the image of the game in a cost-effective manner.

The "legislative catch" is that the two exempted exhibition contests permitted in Bylaw 17 still count against the Bylaw 20 basketball scheduling limits. This jittery balance between Bylaws 17 and 20 continues to drive membership confusion and necessitated the blanket waiver a few years ago. The membership confusion continues and is exacerbated by the unpredictable nature of multi-team event scheduling. These factors have placed Division institutions in a position, without any intent to avoid membership requirements or gain a competitive advantage, to potentially exceed the four non-Division I institution limit in Bylaw 20.

Since Bylaw 20 covers Division I membership expectations, an institution potentially faces restricted membership status for even exceeding the non-Division I opponent limit even by one contest. We believe punishing an institution with restricted membership status presents a disproportionate penalty when compared to the circumstances.

When assessed in totality, we believe these circumstances warrant relief from Division I Bylaw 20.9.6.1. We appreciate the Cabinet's consideration of this request. Our member institutions understand the request is a one-time request applicable only to the 2011-12 academic year.

Sincerely,

Matthew Banker

RE: *UC Irvine Relief Waiver Request for bylaw 20.9.6.1*

Dear Mr. Chaves:

University California, Irvine requests a waiver of bylaw 20.9.6.1 allowing UC Irvine's Men's Basketball team to exceed the maximum four (4) non Division I opponents allowed in the current legislation. UC Irvine feels the circumstances in this request warrant a waiver of the bylaw for the 2011-2012 season only.

THE FACTS ASSOCIATED WITH THE WAIVER:

When scheduling the 2011-2012 men's basketball schedule, UC Irvine used bylaw 17.3.5.1(a) scheduling 27 contests and one qualifying regular-season multiple-team event. The 27 contests included contests against two (2) NAIA schools, Hope International and Vanguard University. In addition, two (2) exempted exhibitions against non-NCAA Division I teams were scheduled for the beginning of the season against California Baptist University and San Diego Christian University. In addition to the 27 contests and two (2) exhibitions, UCI attended one qualifying regular season multiple-team event, the Great Alaska Shootout. Seven (7) Division I schools and one (1) Division II school were participants in this tournament. Since the two (2) exhibition contests do not count in the win-loss category, it was erroneously believed that these competitions are also not included in the total non Division I opponent limitation and the schedule was approved. Unfortunately, although on opposite sides of the bracket, UC Irvine lost its first 3 games, as did University of Alaska at Anchorage (the Division II School,) so the two teams played for the 7th/8th place game. When scheduling the 2011-2012 contests, the Great Alaska Shootout was on the schedule, but only the first game in the tournament was scheduled. This first contest was against a Division I opponent and no other contests in the qualifying tournament were scheduled. According to the correct application of the bylaw, counting the exhibition games, UC Irvine is totaling five (5) non-Division I opponents, which is over the bylaw 20.9.6.1 limitation.

MITIGATING CIRCUMSTANCES FOR RELIEF:

Recognizing the importance of the NCAA rules in regard to scheduling contests 2-years ago, UC Irvine strengthened its scheduling approval system through an online portal. Within this portal, coaches enter all the season's contests and submit. Once submitted the schedule is approved by the Compliance

Coordinator, the Assistant Athletic Director of Compliance, the Associate A.D. for Facilities and Operations, the Associate A.D. for Athletic Communications and then finally the Associate A.D. for Administration and Sports. Coaches are responsible for understanding their sport specific rules when scheduling and Compliance reviews all schedules to be sure they have correctly applied the NCAA scheduling rules. The 2011-2012 Men's Basketball schedule was approved with two (2) exhibitions against non Division I opponents, two (2) regular season games against non Division I opponents and one qualifying regular-season multiple-team event where a non Division I opponent was a participant, but was not originally scheduled to play UC Irvine. As the legislation does not state exhibition games are to be included in this four (4) game limit, the institution did not include the exhibition games in the non Division I opponent limitation when approving the schedule. In 2007, a waiver was approved in which the Association noted bylaw 20.9.6.1 was misapplied by the membership in enough circumstances that a blanket waiver was necessary. While this waiver recognized the confusion in 2007 and concluded clarification was needed, the bylaw is still unclear today in 2011. At this time, we have noted three (3) other Division I men's basketball programs who have five (5) non Division I opponents on their current schedule (2011-12). This clearly shows the Membership is still confused by the application of this bylaw. UC Irvine believes if a blanket waiver was necessary in 2007 due to acknowledged confusion with the application of bylaw 20.9.6.1, a waiver is certainly justified in this circumstance. While the blanket waiver and clarification went out in 2007, no member of the UC Irvine Compliance Staff worked at Division I yet, so they never received this vital information. Unfortunately, if someone was not on Division I staff at that point they would not know about this clarification because waivers are not lasting educational documentation. No changes have been made to bylaw 20.9.6.1 to clarify its intended application to exhibition games, a confusion which was acknowledged and allowed for the blanket waiver in the first place.

Alternatively, it's important to note, the University of Alaska at Anchorage contest was not scheduled. Under the tournament structure, only the first contest was scheduled. In this case UC Irvine was scheduled against a Division I opponent for the opening contest. In a qualifying event, other than the first contest, the next opponent is unknown. The 2nd through 4th round match-ups are based on wins or losses in the tournament. They are not scheduled in advance. Bylaw 20.9.6.1 it states "an institution may not schedule and play more than four games against non Division I opponents." UC Irvine did not schedule the game against the University of Alaska, Anchorage. Throughout the course of the tournament, only half the field played the non Division I opponent. In a tournament with eight (8) teams and only one (1) of which is Division II, relief should be granted as it is difficult to predict who will match up, as the games are not scheduled in advance, but through a bracket based on wins or losses.

CONCLUSION:

In past cases, the Association has allowed for a waiver based on misapplication of the bylaw due to confusion with the exhibition rules. This acknowledged vagueness within bylaw 20.9.6.1 has not been rectified to clarify its application to exhibition contests. As such, UC Irvine believes a waiver is the correct and necessary relief in this case. Granting relief will not create an unfair competitive advantage

for UC Irvine. The exhibition contests do not count in the winning percentage. In the Great Alaska Shootout, UC Irvine lost to a non Division I opponent in the regular season, which has a negative effect on the win percentage. Only two (2) of the five (5) non Division I contests were counted as wins. Essentially, allowing a 5th contest against a non Division I opponent leaves UC Irvine in the exact competitive position they would be in if they had properly met the four (4) contest limit. It is also important to note that in meeting membership requirements, UC Irvine played a full schedule rather than the minimum 25 contests. A misapplication of the rule when counting exhibitions and a late tournament match up left the institution out of membership compliance. Otherwise, UC Irvine met all membership requirements.

UC Irvine did not schedule the University of Alaska, Anchorage contest. The only match up scheduled was the first contest and this contest was scheduled against a Division I opponent. Beyond this first scheduled contest, it came down to wins or losses to determine who an institution would play. The legislation states "an institution may not schedule and play more than four games against non Division I opponents." Relief should be granted because under the tournament format the 2nd through 4th round contests were based on wins or losses and were not scheduled by the institution.

It is important to note not granting relief will have a negative effect on student athlete well-being. The men's basketball student athletes should not be punished because of the institution's misapplication of the bylaw. Without the waiver, these students will not be allowed to participate in postseason activities, yet they had no control or culpability in the misapplication of bylaw 20.9.6.1. While UC Irvine acknowledges the confusion, it feels the student athletes should not pay the price for this error. It would be very unfortunate to see the student athletes qualify for the conference tournament, but have to sit out due to administrative issues.

While the university contends the bylaw's application is confusing and vague in the current form, it is important to state UC Irvine now understands the correct intended application of bylaw 20.9.6.1. This is a waiver request for the 11-12 season only. UC Irvine will put controls in place to insure compliance with bylaw 20.9.6.1. The scheduling approval process will be updated to include a non Division I opponent calculation that includes exhibitions and all qualifying tournament participants if not Division I. All exhibitions will be counted in the limitation, all tournaments will be checked for non Division I opponents and UC Irvine will not exceed the maximum four (4) contests again.

Thank you for your attention in this matter. Please contact my office if you have any questions.

Sincerely,

CABINET DUTIES AND RESPONSIBILITIES

The NCAA Division I Administration Cabinet shall:

1. Oversee the administrative functions related to the management of the governance structure;
2. Appoint the members of the substructure (i.e., committees);
3. Administer the legislation and policies and procedures related to Division I membership, and

CABINET COMPOSITION

Pursuant to Bylaw 27.7.5.2.1, the NCAA Division I Administration Cabinet shall consist of 21 members. The members of the Administration Cabinet shall include:

1. One administrator or representative from each of the following 11 conferences:
 - a. Atlantic Coast Conference;
 - b. Big East Conference;
 - c. Big Ten Conference;
 - d. Big 12 Conference;
 - e. Conference USA;
 - f. Mid-American Conference;
 - g. Mountain West Conference;
 - h. Pacific-10 Conference;
 - i. Southeastern Conference;
 - j. Sun Belt Conference, and
 - k. Western Athletic Conference.
2. Ten administrators or representatives from among the following 20 conferences:
 - a. America East Conference;
 - b. Atlantic Sun Conference;
 - c. Atlantic 10 Conference;
 - d. Big Sky Conference;
 - e. Big South Conference;
 - f. Big West Conference;

- g. Colonial Athletic Association;
- h. Horizon League;
- i. Ivy Group;
- j. Metro Atlantic Athletic Conference;
- k. Mid-Eastern Athletic Conference;
- l. Missouri Valley Conference;
- m. Northeast Conference;
- n. Ohio Valley Conference;
- o. Patriot League;
- p. Southern Conference;
- q. Southland Conference;
- r. Southwestern Athletic Conference;
- s. The Summit League, or
- t. West Coast Conference.

ORGANIZATION

Pursuant to Bylaw 21.7.3.2, individuals appointed to the Administration Cabinet shall be appointed for one four-year term. A former cabinet member may be appointed to an additional term on the cabinet after three years have elapsed. The term of office shall commence on the first day of July following the member's appointment.

The cabinet has established an Administrative Committee in order to allow the cabinet to make timely and efficient progress on issues before it:

Administrative Committee

The Administration Cabinet shall have an administrative committee to act on behalf of the full Administration Cabinet between meetings to transact necessary and routine items of business clearly required to promote normal and orderly administration of cabinet business

The Administrative Committee shall consist of four members, including the chair of the cabinet (who also serves as chair of the Administrative Committee). The members shall be appointed by the Administration Cabinet chair. The Administrative Committee shall include one representative from a Division I Football Bowl Subdivision (FBS) conference, one representative from a Division I Football Championship Subdivision (FCS) conference and one representative from a Division I subdivision conference. All Administrative Committee members, including the chair, may vote on items of business before the committee. The full Administration Cabinet will receive all Administrative Committee reports.

The Administrative Committee is authorized to:

1. Act for the cabinet on routine and noncontroversial matters (e.g., appointment of individuals to replace a committee seat vacated before expiry of that term) between cabinet meetings.
2. Act for the cabinet on matters of an emergency nature, particularly those related to the health and safety of student-athletes.
3. Organize and structure meeting agendas subsequent to the submission of agenda items by cabinet members.
4. Recommend that an Administration Cabinet member be replaced if he or she is not properly discharging his or her duties.

Reporting Lines:

The following committees shall report to the Administration Cabinet regarding issues related to Division I:

1. Honors Committee;
2. Postgraduate Scholarship Committee;
3. Research Committee; and
4. Walter Byers Scholarship Committee.

MEETING SCHEDULE

The Administration Cabinet will meet three times per year in September, February and June.

The Administration Cabinet may also convene via teleconference, as necessary to conduct its business (e.g., review reclassification information).

TERMS

Pursuant to NCAA Bylaw 21.7.3.2, the term of office for members shall be as follows:

1. Members of the cabinet shall serve for one four-year term. Members are not eligible for immediate reappointment. A former cabinet member may be appointed to an additional term on the cabinet after three years have elapsed. An individual who has served two terms on a cabinet may not serve further on that cabinet;
2. The terms of office of Football Bowl Subdivision (FBS) positions and Football Championship Subdivision (FCS) and Division I Subdivision positions shall expire on a staggered basis to provide for continuity. Members may be appointed for less than full terms;

3. The terms of office shall commence on the first day of July following the member's appointment;
4. Members who serve more than one-half of a term shall be considered to have served a full term, and
5. A conference may remove its representative to the cabinet during a term.

ABSENCES

The full Administration Cabinet meets three times a year (September, February, June). If an Administration Cabinet member is unable to attend a cabinet meeting for a compelling reason, a conference may appoint an alternate for that individual. Alternates may attend, participate fully in and vote in any Administration Cabinet meeting or activity in which the regular member is unable to participate (excluding Administrative Committee activities).

SELECTION OF ADMINISTRATION CABINET CHAIR

The Administration Cabinet shall elect one of its members to serve for a period of not more than two years as chair. The chair shall not be eligible for immediate re-election to that position. At least once in every three chair rotations, there shall be an FCS or Division I subdivision representative serving as chair.

An Administration Cabinet member is eligible for nomination for the position of chair if:

1. His or her Administration Cabinet term expiration date will permit service for a period of not more than two years as chair, and
2. A particular subdivision must be represented due to the rotation requirement and he or she represents a conference in that subdivision.

In years in which a chair is to be selected, during or subsequent to the February meeting, Administration Cabinet members eligible to serve as chair shall nominate themselves or another Administration Cabinet member by communicating with the current chair or NCAA staff liaisons to the cabinet. When nominating another Administration Cabinet member, the person nominating should confirm that the nominee would accept the chair position.

COMMITTEE APPOINTMENT POLICIES AND GUIDELINES

The cabinet makes appointments at the February meeting each year to fill vacancies that will occur the following September.

In addition, appointments to fill interim vacancies that occur throughout the year are made at the cabinet's June and September meetings, or by the Administrative Committee of the cabinet between meetings if necessary to facilitate a committee's work.

1. **Appointment Policies and Guidelines.** The cabinet uses the following policies and guidelines in making appointments to committees. [Note: Some of the policies and guidelines are specific to sport committees]:

- a. Solicitation Process.

- (1) The cabinet shall encourage conferences to nominate only one individual for a committee vacancy, except for those instances when a committee is seeking nominees with distinct backgrounds (e.g., when a committee is seeking one coach and one administrator).
- (2) Electronic vacancy announcements will include a link to the committee member job description for review by the prospective nominee prior to submitting nomination materials.
- (3) A file of nominees for committee service will be maintained in the national office for a one-year period, and such nominees will be considered for any vacancy occurring on the appropriate committees during that year.
- (4) All changes in sports committees' regional alignments (for purposes of championships administration) are to occur prior to the call for nominations for sport committee vacancies, so that nominations can be solicited from the appropriate region.
- (5) When nominees are solicited for a sport committee position(s), the notice of the vacancy may include a stated preference that the nominees be from a specific region for that sport in order to obtain the appropriate geographic balance, if such position is not legislatively earmarked for a particular region; however, the notice may not include a stated preference that the nominees be from a particular conference (e.g., nonautomatic- or automatic-qualifying conference). The notice may also include a stated preference for a coach or administrator (as

identified by the committee in its annual committee composition review) if the position is not mandated by the legislated requirements.

- (6) The cabinet will re-solicit additional nominations when there are no eligible and qualified individuals nominated prior to the deadline.

b. Eligibility.

- (1) An individual may not serve on an NCAA sport or rules committee unless the individual's institution sponsors that sport on a varsity intercollegiate basis. Conference office personnel may not serve on an NCAA sport or rules committee unless the conference sponsors the sport.
- (2) No more than one individual from the same institution may serve on the same committee.
- (3) No more than one individual from the same conference may serve on the same committee unless special circumstances warrant.
- (4) A cabinet member may not serve on a sport or rules committee concurrent with his or her term on the Division I Championships/Sports Management Cabinet.
- (5) An individual may not serve concurrently on more than one committee that has championships-administration responsibilities; however, an individual may serve concurrently on a committee with championships-administration responsibilities and on a committee with only rules-making responsibility.
- (6) Individuals currently serving on sports committees are not eligible for consideration for appointment to different sports committees unless their current term will expire prior to the beginning of the new committee appointment.
- (7) Individuals eligible for reappointment (i.e., if they have served less than one-half of a term) will not automatically be reappointed. [NOTE: This policy is intended to aid conference rotation and avoid situations that allow conference members to hold committee slots for more than four years.

c. Appointment Guidelines.

- (1) The cabinet will seek to identify and appoint the most qualified individual nominated for a committee based on the committee's legislated requirements.

- (2) The cabinet is committed to enhancing the level of diversity serving on Division I and Association-wide committees not only from a gender and ethnicity standpoint, but also in terms of positional representation.
- (3) The cabinet shall be sensitive to the history of conference representation and seek to ensure a balanced approach to the appointment process so that each multisport conference is provided adequate opportunities to serve on the variety of committees that comprise the Division I and Association-wide governance structures (i.e., attempt to fill the vacancy with an individual from a conference other than the one rotating off, or from a conference that has not had representation on the committee recently).
- (4) The cabinet shall strive to identify and cultivate new professionals from the membership to serve within the governance structure.

d. Appointment Process.

- (1) A one-page information form has been developed on which each nominee for a committee provides essentially the same information regarding position, experience, current or past NCAA committee service, education and qualifications. Submission of other documentation, such as resumes, is not requested, and such documents, if submitted, will not be provided to the cabinet. No nominee will be considered by the cabinet unless the information form is submitted.
- (2) All nominations are to be sent to the coordinator responsible for committee administration at the NCAA national office, and not directly to the members of the cabinet. Only nominations submitted in accordance with the deadline will be considered, except in an instance where no nominee meets the specific requirements of the vacancy. In that case, the cabinet may appoint an individual to fill the vacancy.
- (3) Conference offices are encouraged to ensure that nominees put forward for committee service have the necessary expertise and familiarity with the sport and have a commitment to fulfilling the committee service responsibilities.
- (4) Replacement of a conference's original submission will be accepted only if the replacement is received at least seven calendar days prior to the initial day of the cabinet's next regularly scheduled meeting.
- (5) For committee appointment purposes, conference office personnel will be considered to be from the region in which the conference office is located, unless all of the institutions within the conference are located in the region other

than the region in which the conference office is located, in which case the conference personnel will be considered to be from the region in which its institutions are located.

e. Resignations and Interim Vacancies.

- (1) If an individual resigns from a sport committee prior to the expiration of his or her term, the vacancy first will be opened to eligible nominees from the resigning member's conference. If necessary, the vacancy may be opened to all eligible nominees. If an individual nominated by the resigning member's conference is appointed to fulfill the remaining portion of a term, he or she is not guaranteed reselection should he or she be eligible for reselection.
- (2) Committee members who move to institutions that do not sponsor the sport or who are at an institution or conference that no longer sponsors the sport must resign from the committee unless a waiver is granted by the cabinet based on extenuating circumstances.
- (3) Committee terms begin September 1. If an appointed individual declines the appointment prior to the September 1 start date, the Administration Cabinet will review the original slate of nominees, which may include a new nominee from the affected conference.

2. **Legislated Requirements.** In addition to the policies and guidelines above, the following legislated requirements apply to committees appointed by the Administration Cabinet:

- a. Committee Representation (Bylaw 21.7.2.1): With the exception of football-related committees, no subdivision of Division I shall have more than 50 percent representation on any committee unless approved by a vote of at least 85 percent of the Board of Directors.

[Note: The following committees are excepted from the 50-percent representation requirement: baseball, men's basketball, women's basketball, men's basketball issues, women's basketball issues, men's gymnastics, women's gymnastics, men's soccer, women's soccer, women's softball, women's volleyball, wrestling, student-athlete reinstatement, academic performance, initial-eligibility waivers.]

- b. "On the Staff" Requirement (Bylaw 21.7.1.1). Individuals serving on Division I committees, or as Division I representatives on Association-wide or common committees, shall be salaried on a regular basis by a Division I institution or conference and perform a regular staff function representing at least 50 percent of the normal workload for a staff member at that institution or conference, unless otherwise

- specified. In addition, a conference office staff member must be employed at a single or multisport conference that meets the requirements for automatic qualification and he or she must be nominated by a multisport conference set forth in Constitution 4.2.1.
- c. Association-Wide General Committees: These committees deal with issues that affect members of all three divisions of the Association. They comprise members from each of the Association's membership divisions, including each subdivision of Division I. Each division's governance structure appoints members to serve on Association-wide committees, and the Executive Committee ratifies policies regarding length, location and expenses of Association-wide committee meetings. [Bylaws 21.02.1 and 21.2.1]
- d. Association-Wide Rules Committees Without Championships Administration Responsibilities:
- (1) These committees include representatives from each of the Association's membership divisions. Each division's governance structure appoints members to serve on these committees. The secretary-rules editor may be re-appointed but is limited to a term not to exceed eight years and is a nonvoting member. [Bylaw 21.3.1.1]
- Due to extenuating circumstances, the Playing Rules Oversight Panel may waive the secretary-rules editor's eight-year term limit; however, the term shall not be extended by more than four additional years. [Bylaw 21.3.1.1.1]
- (2) At least 25 percent of positions on these rules committees must be filled by athletics administrators (athletic directors, associate or assistant athletics directors), individuals who are employed full-time as administrators by member conferences, or individuals who are employed both part-time as administrators by member conferences and full-time by member institutions. At least 50 percent of the total positions on each rules committee shall be filled by coaching staff members. In order for a region to be represented, at least five of its active members shall sponsor the sport involved on an intercollegiate basis. [Bylaw 21.3.1.2]
- e. Sport Committees with Division I Championships Administration Responsibilities:
- (1) For committees that administer Division I or National Collegiate Championships in individual sports, at least 25 percent of the positions must be filled by athletics administrators (e.g., athletics directors, associate or assistant athletics directors, individuals who are employed both part-time as

administrators by member conferences and full-time by member institutions). [Bylaw 21.7.5.5.3.1]

- (2) For committees that administer Division I or National Collegiate Championships in team sports, at least 50 percent of the positions on each committee must be filled by athletics administrators. [Bylaw 21.7.5.5.3.1]

- f. Common Committees with Playing Rules and Championships Administration Responsibilities: These committees deal with issues that affect members of more than one division. They comprise members of the applicable divisions. Each division's governance structure appoints members to serve on common committees. The Playing Rules Oversight Panel shall oversee the selection process of secretary-rules editors and approve the selections for those positions. The secretary-rules editor may be reappointed but is limited to a term not to exceed eight years in length and shall be a nonvoting member of the committee. [Bylaw 21.4.1.1]

Due to extenuating circumstances, the Playing Rules Oversight Panel may waive the secretary-rules editor's eight-year term limit; however, the term shall not be extended by more than four additional years. [Bylaw 21.4.1.1.1]

- (1) For committees that administer Division I or National Collegiate Championships in individual sports, at least 25 percent of the positions must be filled by athletics administrators (i.e., athletics directors, associate or assistant athletics directors, individuals who are employed full-time as administrators by member conferences, or individuals who are employed both part-time as administrators by member conferences and full-time by member institutions). Further at least 50 percent of the total positions on each rules committee shall be filled by coaching staff members. [Bylaw 21.4.1.2]
- (2) For committees that administer Division I or National Collegiate Championships in team sports, at least 50 percent of the positions on each committee must be filled by athletics administrators. Further, at least 50 percent of the total positions on each rules committee shall be filled by coaching staff members. In order for a region to be represented on a committee for which region representation is specified, at least five of its active members must sponsor the sport on an intercollegiate basis. [Bylaw 21.4.1.2]

REMOVAL FROM COMMITTEE

The chair of each committee is authorized to recommend to the Division I Administration Cabinet that a member be replaced if such member is not discharging the member's duties properly or is absent from two consecutive meetings without reasons approved by the committee chair. The Administration Cabinet shall have the authority to appoint a replacement for the unexpired portion of the term of the removed committee member. [See Bylaw 21.7.3.4-(d)]

DIVISION I MEMBERSHIP RECLASSIFICATION PROCESS

Review of Reclassifying Members. The Division I Administration Cabinet shall:

1. Review the annual reports and strategic plans for all reclassifying members.
2. Ensure all reclassifying members are meeting all applicable legislative requirements.
3. Provide guidance to conferences on 'best practices' for assisting reclassifying members through the membership process.
4. Make recommendations to the Division I Board of Directors regarding election to active Division I membership status.

AGENDA DEVELOPMENT

Submitting Agenda Items

Any Administration Cabinet member or conference may submit an agenda item for a full Administration Cabinet meeting, provided it is within the duties and responsibilities of the Administration Cabinet. Agenda items should be sent to the Administration Cabinet's primary staff liaisons at the NCAA national office. The staff will consult with the Administration Cabinet member or conference to determine how best to handle the item and what supplementary material should be provided, if any. In addition, the staff liaisons may consult with the chair to determine how best to handle the item.

Timing of Submission of Agenda Items

Items should be submitted eight weeks prior to the meeting. Items submitted after the deadline may be added, subject to the chair's approval.

Review of Agenda Items

The full Administration Cabinet will receive agendas and supplements in advance of the meetings to ensure that each cabinet member has an opportunity to comment on issues being addressed by the cabinet. The agenda and supplements will be made available on the NCAA website and the NCAA Committee Zone 17 days prior to the meeting. All actions, except where otherwise legislated or determined by policy, are subject to review and final approval by the full Administration Cabinet.

CONFLICT OF INTEREST POLICY

The NCAA is a voluntary Association comprised of colleges, universities, conferences and other organizations, and governed through a membership-led committee structure. Within the governance structure, committee members must carefully balance their responsibilities to their respective institutions and/or conferences with the obligation to advance the interests of the Association, the division, or the sport, and ultimately enhance the student-athlete experience. While the fiduciary obligations of committee members to their own institution, their conference, and to the Association ordinarily are not in conflict, it is recognized that as a representative membership organization, committee members' fiduciary obligations are first to their institution, second to their conference, and third to the Association. NCAA committee service involves important ethical and moral obligations. Committee integrity is critical to the decision-making process and includes trust, confidentiality and honesty in all issues and aspects of service and representation. NCAA committee members shall disclose any conflict or potential conflict between their respective personal, professional, institutional, conference or business interests and the interests of the Association that may affect or otherwise threaten such integrity, in any and all actions taken by them on behalf of the Association, for committee evaluation under this Statement.

In addition to any fiduciary obligation to their institution or conference, committee members also have a fiduciary duty to the Association not to use knowledge or information obtained solely due to service on that committee to the disadvantage of the Association during the term of committee service. Further, a Committee member shall not participate in the committee's discussion or vote on any action that might bring direct or indirect personal financial benefit to the member or any organization (other than the member's institution or conference) in which the member is financially interested. A committee member should also not participate in a discussion or vote for which the member's institution or conference is to be accorded a special benefit beyond benefits shared with other institutions or conferences or is to receive a penalty or disqualification. A violation of either of the above rules by a member of the committee shall not invalidate the action taken by the committee if, following disclosure of the conflict of interest, the committee authorizes, ratifies or approves the action by a vote sufficient for the purpose, without counting the vote of the committee member with the conflict of interest, and the appropriate oversight body approves the action.

A committee member is responsible for advising the chair of any actual or potential conflicts of interest or obligations which he/she may have hereunder, and should recuse him/herself from participating in proceedings, as may be warranted by this policy. Abuse of one's position as a member of a committee may result in dismissal from that position. Where such abuse appears evident, a committee member will be notified by the committee chair and will have the opportunity to present a rebuttal or details of the situation. *(August 2008 Executive Committee minutes)*

SPEAKING AGENT POLICY

The president of the Association and the chair of the Executive Committee are the only individuals authorized to speak on behalf of the Association except as outlined below. An individual representing a member institution or conference who speaks or opines on an Association issue only has the authority to express the view of that individual or the member institution or conference unless the individual has been designated by the Executive Committee of the Association as a speaking agent of the Association on that issue. Committee chairs are hereby designated as speaking agents of their committees regarding issues within their committees' jurisdiction on which there is consensus, except that positions of advocacy on behalf of the committee or the Association to be communicated in writing or orally to persons or entities external to the Association must have prior approval by the NCAA Executive Committee or the president of the Association. The president of the Association is hereby granted authority to designate additional speaking agents of the Association. *(April 2001 Executive Committee minutes)*

Mr. Bill Chaves
Director of Athletics
Eastern Washington University
526 Fifth Street SHW214
Cheney, Washington 99004

Dear Mr. Chaves:

Thank you for your leadership as chair of the NCAA Division I Administrative Cabinet. The cabinet's work in helping ensure thoughtful and diverse membership on Division I committees is important in the ongoing success of the Division I governance structure. The purpose of this letter is to request the Administrative Cabinet consider granting a one-year extension to Greg Sankey's term on the NCAA Division I Committee on Academic Performance.

Mr. Sankey has served as a valuable member of this committee since 2008. His term ends September 2012. Given that the committee is scheduled to lose six members at the same time, it is my hope that his term be extended to allow for some stability at this critical time in the academic reform cycle. Mr. Sankey's tenure has coincided with a crucial time in the history of the NCAA Division I Academic Performance Program, and he has made significant contributions to the development of the new academic standards. Additionally, the committee has only two Football Bowl Subdivision (FBS) members out of 15. As an FBS member, Mr. Sankey's one-year extension will help ensure some continuity of representation among this constituency.

Thank you for your consideration of this request. Please feel free to contact me if you have any questions, and again, thank you for your leadership and service.

Sincerely,

A handwritten signature in black ink that reads "Walter Harrison".

Walter Harrison
Chair, NCAA Division I Committee on Academic Performance
President, University of Hartford

2011-12 DIVISION I COMMITTEE ON INFRACTIONS

Legislated Requirements: Ten members, seven of whom shall be at present or previously on the staff of an active member institution or member conference of the Association, no more than three but no less than two of whom shall be from the general public and shall not be associated with a collegiate institution, conference, or professional or similar sports organization, or represent coaches or athletes in any capacity. One of the members shall serve as chair and one as vice-chair. Two positions shall be allocated for men, two for women and six unallocated. Two members shall be elected as the coordinators of appeals. 19.1.1.3

There shall be no subdivision restrictions except that all nonpublic members may not be from the same subdivision; however the coordinator of appeals shall not be considered in determining whether such a requirement is satisfied.

Appointed for three-year term. A member may be reappointed but shall not serve more than nine years on the committee, with the exception of the coordinator of appeals, which may be filled by a former member of the committee who had previously served nine years. (Three years must elapse before a former member can be appointed to fill the coordinator of appeals slot.)

Vacancies: **One September 2012 vacancy. Any subdivision.**

Reappoint: **Rodney Uphoff (term 2); James O’Fallon (term 2); Eleanor Myers (term 2); Roscoe Howard (term 2).**

2011-12 MEN'S AND WOMEN'S SKIING COMMITTEE

(Association-Wide Rules Administration and National Collegiate Championship)

Legislated
Requirements:

Seven members including representatives from all divisions and subdivisions of Division I in which a substantial number of schools sponsor the sport of skiing. Two members must represent men's skiing interests, two members must represent women's skiing interests and three unallocated positions. One member must from the West region, two members must be from the East region, three members selected at large and one member who is the secretary-rules editor. Two members must be coaches who represent downhill alpine skiing and two members must be coaches who represent Nordic skiing. The secretary rules editor may be counted towards satisfying the coaches' requirement.

The committee has an exception to the 25 percent administrator composition requirement in Bylaw 21.1.3.1.2.

Waiver: **Division III waived Bylaw 21.8.1.3 to allow for a conference member to serve directly after a member from the same conference. (10/03)**

Vacancy: **Two September 2012 vacancies. Any division or subdivision. One Alpine coach; one Nordic coach. Preference: FCS and DII.**

2011-12 MEN'S AND WOMEN'S ICE HOCKEY RULES COMMITTEE

Legislated
Requirements:

Thirteen members. Six from Division I, one from Division II and four from Division III and one Division II or III at large position. Within Divisions I and III, one half of the members shall represent men's interests and one half shall represent women's interests. An additional member shall be a nonvoting secretary-rules editor. Quota of 25 percent administrators: 2. Quota of 50 percent coaches: 6 (3 for D-I). One position will be represented by either Division II or III and from the gender not represented by the specified Division II representative.

The subdivisional requirement for I-AAA is waived due to the lack of I-AAA member schools sponsoring ice hockey. Bylaw 21.2.1.1

8/05 -- Division III granted a waiver of Bylaw 21.8.1.3 to allow a conference member to immediately follow a member from the same conference (cannot be the same institution).

Policy:

Each division will adhere to the 50 percent coaches independently.

Vacancies:

Three September 2012 vacancies. One Division I (men's interests; coach or administrator). Two Division III (one men's interests; one women's interests); one coach.

Staff Liaison:
Chair:

**REPORT OF THE
NCAA HONORS COMMITTEE**

1. ACTION ITEM.

- **Nonlegislative Item.**
 - **Committee appointment.**
 - (a) Recommendation. The Honors Committee recommends the appointment of Steve Largent to serve as a public member of the Honors Committee beginning at the close of the 2012 NCAA Convention.
 - (b) Rationale. The Honors Committee composition includes three members of the public (nationally distinguished citizens). The committee reviewed potential candidates and recommends Mr. Largent. Mr. Largent is a 2001 NCAA Silver Anniversary Award recipient. He graduated from the University of Tulsa, played professional football for the Seattle Seahawks. He served in the U.S. House of Representatives from 1994 until 2002. Mr. Largent is currently the president and CEO of the CTIA-The Wireless Association.
 - (c) Estimated Budget Impact. None. Mr. Largent will replace Gene Corrigan whose term ends at the close of the 2012 Convention.
 - (d) Student-Athlete Impact. None.

2. INFORMATIONAL ITEMS.

a. 2012 Theodore Roosevelt Award Selection.

The committee selected Will Allen (University of Miami, Florida) as the Theodore Roosevelt Award recipient.
