Qualification Statement	I have always been interested in the rules formation and process as it pertains to the betterment of the experience for our student-athletes. I believe that this committee is dedicated to making the college athletic experience the best that it can be and I would like to be a part of that decision making process. All of the experiences that I have had within my coaching and administrative roles have prepared me to serve as a productive member of such a committee. I am excited about the opportunity to make a positive impact on this committee, which in turn can benefit our sport and its participants. The rules are in place to protect and serve our college student-athletes and it would be privilege to be a part of this process.

Qualification Statement	I am interested in being a member of the rules committee due to the fact that I love the game of soccer and feel I could significantly contribute to the improvement of the sport in the NCAA and beyond. If selected I would bring a wealth of playing and coaching experience from different levels to the committee. I have coached at four collegiate institutions, one high school, for the top club in the country full time, and also in the USL. As a player I would bring NCAA DI experience, NAIA experience, high level ODP experience, and also semi-professional and professional experience to the table. I have dedicated myself and basically my life to college coaching at this point so I am ready to engage the sport and the NCAA at all levels. I thank you for your time and look forward to your response.
