

Check on the Receipt of a Student's Score

To see if a student's official test score has been received by the Eligibility Center from the SAT or ACT, go to our Web site at www.eligibilitycenter.org. Click on "Enter Here" for high schools and log into the system. Once you have logged in, click "Reports" then on "Search Student Details" and select your search criteria. The site will let you know whether a transcript or test score is on file for the student in question.
