Lowest Course Grade: Pass/Fail

A student must pass a course in order for the NCAA Eligibility Center to use the course in a student’s evaluation; therefore, we will not use a course if the student receives an F in a course.

In Pass/Fail grading situations, the NCAA Eligibility Center will assign the high school’s lowest passing grade for a course that receives a Pass grade on the transcript. For most high schools, the lowest passing grade is a D, so the NCAA Eligibility Center generally assigns a D to a Pass grade.
