

PLANNING TO GO DIVISION III

You plan to attend a Division III school.

If you have never attended a four-year school:

- 1 At your two-year school, did you **practice or compete** in **intercollegiate sports**?

You can compete immediately after your transfer **ONLY IF** you would have been academically and athletically eligible to compete had you stayed at your two-year school.

You are immediately eligible to compete upon transfer to the Division III school.

If you attended a four-year school and now attend a two-year school:

- 1 Would you have been **eligible at the certifying Division III school** if you had transferred directly from your previous **four-year school** without attending the two-year school?
- 2 At your two-year school, did you complete at least **two full-time semesters** or **three quarters** (summer school does not count) AND complete **24 transferable credit hours** if your school used semesters or **36 transferable credit hours** if your school used quarters?

You can compete immediately upon transfer to the Division III school.

You are not eligible to compete for a Division III school until you have served an academic year of residence at the Division III school.
