

How to add your school information to your eligibilitycenter.org account

After creating your account, navigate to the Schools section by selecting it from the left menu as you complete your information. Or use the menu in the top right of your screen and select "Schools Questions."

Begin answering the questions.

1. Tell us if you have attended school outside the United States, U.S. territories or Canada; if you are a home school student; or if you repeated grades 9, 10, 11 or 12.
2. If the school you attended was a Department of Defense school or international schools with American-style diplomas, answer No.
3. If you attended school outside the United States, U.S. territories or Canada, learn more at <http://www.ncaa.org/student-athletes/future/international-student-athletes>.
4. A home school course is one in which a parent, tutor or state-recognized home school entity created the curriculum, provided the instruction, designed and graded the assignments, and gave the final grade. If you are not sure whether the classes you have taken are considered home school classes, learn more at <http://www.ncaa.org/student-athletes/future/home-school-students>.
5. Fill in your educational history for each year of your high school/secondary school education.
6. Complete all questions regarding your educational history and provide additional information if needed before you continue to the next section.
