

How to Add Your Sport Information to Your Eligibility Center Account

Before you begin, review your sports participation history. It is best to provide detailed information about your sports participation so that our staff can make accurate and efficient decisions. Sports participation questions are only available in Certification Accounts.

After creating your account and completing the Schools section, navigate to the Sports section.

1. Begin by selecting the sport you wish to play in college. If you plan to participate in more than one sport, you need to complete the sports participation history section for each sport. Your first step is to check to see if your sport is an NCAA sport. You can find a list of NCAA sports [here](#).
2. Answer the participation questions related to your sport all including **all** traditional high school competition and teams.
3. If you have any [monetary awards](#), events, [expenses](#), team/sport contacts or additional services to report, enter them in the Sports section with the correct information.
4. Complete all questions before moving on to another sport or moving to the next section.
5. If you want to play more than one sport, use the “Add a Sport” feature in the left toolbar to return to the Sports page and add additional sports.

6. Complete all questions for additional sports.
7. If your sport is not listed in the drop-down menu, return to your Dashboard to check if you already added the sport. You can deactivate sports from your Dashboard if needed.
