INDIVIDUAL RECORDS

Official NCAA men's lacrosse records began with the 1971 season and are based on information submitted to the NCAA statistics service by institutions participating in the weekly statistics rankings, which started in 1996. Official career records include players who played at least three seasons (in a four-season career) or two (in a three-season career) in Division II during the era of official NCAA statistics. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exists. In these cases, the numerical order of the rankings is accurate.
