# INDIVIDUAL RECORDS

Official NCAA women's lacrosse records began with the 1982 season and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exists. In these cases, the numerical order of the rankings is accurate.

A player whose career includes statistics from five seasons (or an active player who will play in five seasons) because she was granted an additional season of competition for reasons of hardship or a freshman redshirt is denoted by \$.

A player's career needs to be completed to be ranked in career per-game categories (e.g. goals per game).

*Note: Division I women's lacrosse adopted a 90-second possession clock beginning in 2017. Teams were required to take a shot on goal within 90 seconds or lose possession.*

# TEAM RECORDS

Official NCAA women's lacrosse records began with the 1982 season and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exists. In these cases, the numerical order of the rankings is accurate.

*Note: Division I women's lacrosse adopted a 90-second possession clock beginning in 2017. Teams were required to take a shot on goal within 90 seconds or lose possession.*

^ UMass Lowell's 6½ win improvement (1-16 in 2016 to 7-9 in 2017) is not eligible to make the list while still in the re-classifying phase from Division II to Division I.

+Because of the 2020 shortened season (as a result of the COVID-19 pandemic), no most improved lists were compiled for 2021.
