Poll conducted by the NCAA Division III Football Committee through 1998. The American Football Coaches Association supplied poll beginning in 1999.

# Undefeated, Untied Teams

## (Regular-Season Games Only)

Following is a list of undefeated and untied teams since 1973, when College Division teams were divided into Division II and Division III under a three-division reorganization plan adopted by the special NCAA Convention in August of that year. Since 1981, conference playoff games have been included in a team's won-lost record (previously, such games were considered postseason contests). Figures indicate the regular-season wins (minimum seven games against four-year varsity opponents). A subsequent postseason win(s) in the Division III championship or a conference playoff game (before 1981) is indicated by (\*), a loss by (†) and a tie by (‡).

## The Spoilers

(Since 1973, when the three-division reorganization plan was adopted by the special NCAA Convention, creating Divisions II and III.)

Following is a list of the spoilers of Division III teams that lost their perfect (undefeated, untied) record in their **season-ending game**, including the Division III championship playoffs. An asterisk (\*) indicates a Division III championship playoff game and a dagger (†) indicates the home team in a regular-season game or a conference playoff. A game involving two undefeated, untied teams is in **bold** face.

**Surface Notes:** This column indicates the type of surface (either artificial or natural grass) present this year in the stadium. The brand name of the artificial turf, if known, is listed. Legend: Turf—Any of several types of artificial turfs (name brands include AstroTurf, All-Pro, Omni-Turf, SuperTurf, etc.); Grass—Natural grass surface; PAT—Prescription Athletic Turf (a "natural-artificial" surface featuring a network of pipes connected to pumps capable of sucking water from the natural turf or watering it. The pipes are located 18 inches from the surface and covered with a mixture of sand and filler. The turf also is lined with heating coils to keep it from freezing in temperatures below 32 degrees).
