Individual Records

Basketball records are confined to the "modern era," which began with the 1937-38 season, the first without the center jump after each goal scored. Official weekly statistics rankings in scoring and shooting began with the 1947-48 season. Individual rebounds were added for the 1950-51 season, while team rebounds were added for the 1959-60 season. Assists were added for the 1988-89 season. Blocked shots and steals were added for the 1992-93 season. Scoring and rebounding are ranked on per-game average; shooting, on percentage. Beginning with the 1967-68 season, Division II rankings were limited only to NCAA members. The 1973-74 season was the first under a three-division reorganization plan adopted by the special NCAA Convention of August 1973. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exists. In these cases, the numerical order of the rankings is accurate.
