# Individual Records

Official NCAA men's ice hockey records began with the 1947-48 (1948) season and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings. The NCAA began compiling men's ice hockey statistics in the 1995-96 (1996) season. From that season on, games against Canadian schools are only included in the NCAA team's statistics if they meet countable opponent requirements. Prior to 1996, NCAA teams often included Canadian opponents in their statistics, and they are included here in season and career records. Game records, however, do not include those versus Canadian teams. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exist. In these cases, the numerical order of the rankings is accurate.

## Team Records

Official NCAA men's ice hockey records began with the 1947-48 (1948) season and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings. The NCAA began compiling men's ice hockey statistics in the 1995-96 (1996) season. From that season on, games against Canadian schools are only included in the NCAA team's statistics if they meet countable opponent requirements. Prior to 1996, NCAA teams often included Canadian opponents in their statistics, and they are included here in season and career records. Game records, however, do not include those versus Canadian teams. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exist. In these cases, the numerical order of the rankings is accurate.
