The NCAA Media Coordination and Statistics Department thanks Sam Hovland for researching and creating this document in 2012.

Triple-doubles include any combination of double figures in points, rebounds, assists, blocks or steals during the seasons for which the categories were officially kept by the NCAA. Assists became an official Division I statistic in 1985-86, and blocks and steals were added for the 1987-88 season.

^Game information unknown for six triple-doubles by Suzie McConnell of Penn St.

\*Quadruple-doubles are counted four times apiece in this list, once for each of the four possible triple-double combinations that can be made from a quadruple-double. For example, a points/rebounds/assists/steals quadruple-double counts for the points/rebounds/assists, points/rebounds/steals, points/assists/steals and rebounds/assists/steals categories.

&Number of triple-doubles involving each specific category. The average column indicates, e.g., the average number of rebounds across all triple-doubles involving rebounds (and similarly for the other statistics).
