## Individual Records

Official NCAA field hockey statistics began in 1981 and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings, and information maintained by the National Field Hockey Coaches Association and Chip Rogers, director of emerging programs for the NFHCA. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exists. In these cases, the numerical order of the rankings is accurate.

## Team Records

Official NCAA field hockey statistics began in 1981 and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings, and information maintained by the National Field Hockey Coaches Association and Chip Rogers, director of emerging programs for the NFHCA. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exists. In these cases, the numerical order of the rankings is accurate.
