Individual Records

Official NCAA volleyball records began with the 1981 season and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exist. In these cases, the numerical order of the rankings is accurate.

Blocking information has not been included in the following records due to the fact that there appears to be a significant variance in the methods by which blocking statistics were kept during the 1980s. Research continues to determine a standard by which to measure blocking statistics for NCAA record-keeping purposes.

Official career records include players whose career statistics were recorded during the era of official NCAA play.

An "M" located after a number under a "games played" column indicates the number of matches played, as the number of games is unavailable.

Team Records

Official NCAA volleyball records began with the 1981 season and are based on information submitted to the NCAA statistics service by institutions participating in the statistics rankings. In statistical rankings, the rounding of percentages and/or averages may indicate ties where none exist. In these cases, the numerical order of the rankings is accurate.

Blocking information has not been included in the following records due to the fact that there appears to be a significant variance in the methods by which blocking statistics were kept during the 1980s. Research continues to determine a standard by which to measure blocking statistics for NCAA record-keeping purposes.

An "M" located after a number under a "games

played" column indicates the number of matches played, as the number of games is unavailable.
